

**SUBJECT : INTERPRETATION OF STATUTES**  
**SUBJECT CODE : H3KE**

**Objective of the Course:**

Good enactments are those which have least ambiguities, inconsistencies, contradictions or lacunas. Bad enactments are gold mine for lawyers because for half of the litigation the legislative draftsmen are undoubtedly the cause. The purpose of the interpretation of the statute is to unlock the locks put by the Legislature. For such unlocking, keys are to be found out. These keys may be termed as aids for interpretation and principles of interpretation. It is not within the human powers to foresee the manifold permutations and combinations that may arise in the actual implementation of the act and also to provide for each one of them in terms free from all ambiguities. Hence interpretation of statutes becomes an ongoing exercise as newer facts and conditions continue to arise. Lord Denning rightly pointed out, “English Knowledge is not an instrument of mathematical precision... It would certainly save the judges from the trouble if the acts of parliament were drafted with divine precision and perfect clarity. In the absence of it, when a defect appears, a judge cannot simply fold hand and blame the draftsman...” This subject gives the basic inputs for the students to know the subject matter.
