HON'BLE VICE CHANCELLOR
TNDALU.

THEME

The world is currently in the midst of facing the biggest Global Crisis it has ever witnessed in the form of Global Climate Change. Global Climate Change in the form of raising temperatures, receding glaciers, drying rivers, reduction in wetlands and aberrant and untimely weather conditions causing natural calamities and loss of biodiversity which affects the social, economic and cultural aspects of human life. India's Participation and Role in mitigating the effects of the Global Climate Change is paramount. In this context, a better Understanding and Conceptualization of Global Climate Change is mandated. Therefore, we, at The Tamil Nadu Dr. Ambedkar Law University, have organized this webinar to Analyze, Learn and Discuss the contours of Global Climate Change and how India can lead this global mission.
