ABOUT THE PROGRAM:

In today's digital age, the internet opens doors to learning, exploration, and connection. However, with these exciting opportunities come potential risks and challenges. Our outreach program on Cyber Laws and Cyber Security aims to equip school students with essential knowledge about online safety and the laws that protect them in the digital world.

PROGRAM BENEFITS:

- Build awareness about cyber security and cyber laws.
- Protect yourself from online threats.
- Learn to report cybercrime safely.
- Foster responsible and ethical online behavior.
- Gain the skills to navigate the digital world confidently.

PROGRAM HIGHLIGHTS:

Understanding Cyber Threats

- Learn about the most common online threats and how to stay safe, including phishing attacks, malware, and social engineering.

Safe Internet Practices

- Explore simple steps to secure your personal information, create strong passwords, and recognize unsafe websites.

Cyberbullying Awareness

- Understand what cyberbullying is, how to prevent it, and how to report it safely.

Cyber Laws Simplified

- Discover the laws that protect you in the digital space. Learn about important regulations like the Information Technology Act and how it relates to students.

Digital Citizenship

- Become a responsible digital citizen. Learn the ethical and respectful way to behave online.

Interactive Sessions

- Participate in engaging activities, quizzes, and real-life scenario discussions to better understand the importance of cyber security.

REPORT OF THE OUTREACH PROGRAM

On March 20th, 2025, the Department of Cyber Space Law and Justice, School of Excellence in Law, The Tamil Nadu Dr. Ambedkar Law University, organized the Cyber Jagrookta Diwas Outreach Program at Ganesh Bai Galada Jain Girls Higher Secondary School, Chennai, Tamil Nadu. The event, organized under the esteemed guidance of Chief Patron Col. Prof. (Dr) N. S. Santhosh Kumar, Hon'ble Vice Chancellor, Patron Prof. Dr. Gowri Ramesh, Registrar, and Convenor Prof. Dr. Ranjit Oommen Abraham (I/C), Head of the Department, Department of Cyber Space Law and Justice, was attended by 150 students. Faculty Coordinators Ms. S.T. Sunitha Rai, Ms. T. Dhivya, and Mr. S. Gokul Prasad, along with the Student Coordinators ensured the seamless execution of the event. The program, dedicated to addressing contemporary cybercrime issues and their solutions, was tailored to educate children between the ages of 11 and 14 about various cyber threats.

From 10:30 AM to 11:30 AM, the session comprehensively covered diverse cyber issues, the challenges they pose, and methods for effectively addressing them. The event was initiated by Student Coordinator Ms. Samritha KR, who provided an introduction to the basics of law and cybercrime, followed by a contextual overview of prevailing cyber issues given by Assistant Professor Mr. S. Gokul Prasad. The Student Coordinators, Ms. Samritha KR, Ms. Jothi Poorna S, Ms. Helen Harisma P, Ms. Kokila Sri L, and Ms. Swathi G, expertly addressed the critical aspects of various contemporary cyber issues and their modus operandi. Their comprehensive coverage included topics such as fake social media profiles, cyber flashing, online grooming, morphing, password attacks, and QR code scams, among others. They also detailed effective redressal mechanisms, fostering an engaging and interactive session. To reinforce the learning experience, Student Coordinators Ms. Yogasuruthi M, Ms. Elakiya K, Ms. Dharshini V, Mr. Arun Kumar N, and Ms. Sivanandhini V conducted an interactive quiz based on the discussed topics. Finally, the event was concluded by Student Coordinator Mr. Thamilarasan E, who provided a summary of the key takeaways and extended gratitude to the participants and organizers.

The Cyber Jagrookta Diwas Outreach Program at Ganesh Bai Galada Jain Girls Higher Secondary School proved to be a resounding success. Through engaging presentations, interactive discussions, and a comprehensive quiz, the program effectively raised awareness among the young participants about the prevalent dangers of cybercrime and the importance of online safety. The students demonstrated a keen interest in the topics covered, actively participating in the sessions and demonstrating a clear understanding of the presented information. This successful outreach initiative significantly contributed to fostering a more cyber-aware generation, empowering them to navigate the digital world safely and responsibly.
